The Friends of the Libraries Present

Understanding the BRAIN
FROM THE ANCIENT WORLD TO PRESENT DAY

JOIN US FOR A PANEL DISCUSSION as we explore the vital role that illustration and imaging have played in our evolving understanding of the human brain. This event is held in conjunction with the Sheridan Libraries’ latest exhibition, *The Dawn of Neurosurgery*, which features rare volumes from the collection of Dr. Eugene S. Flamm that chronicle the early history of our attempts to know and heal the brain.
